An excellent opportunity to interact with scholars, business leaders, and government leaders from all over the world.

- Discuss research findings and current practices pertaining to the various facets and sources of competitiveness to survive and succeed in today’s global marketplace
- Present your paper in a very congenial and professional conference environment
- Publish your article in peer-reviewed, internationally-reputed journals that are listed in ProQuest, Cabell’s, EBSCO, etc.

For more than 25 years, the Conference has been bringing together leaders from business, government, and academia to share and discuss ideas, to reflect on experiences and approaches, and to strengthen the spirit of cooperation and collaboration for improved competitiveness.

- Papers dealing with national, regional, and global strategies related to the themes suggested are welcome.
- Panels and symposia that highlight emerging theories, cutting-edge research or best corporate practices are also sought.
- Special consideration will be given to papers, abstracts, and symposia proposals that facilitate exchange between scholars and practitioners.
- In addition, proposals for panels will be considered.

Competitive papers will be published in the Society’s Journal–Competition Forum (listed in the Cabell’s Directory and on several online databases including EBSCO). At least one author is required to register and attend the conference. Highly competitive papers are invited for publication in a peer-reviewed journal: Journal of Competitiveness Studies. Best paper awards in several categories are extended each year.

The ASC Conference invites conceptual papers, empirical studies, case studies, proposals, panel discussions or abstracts pertaining to both traditional and contemporary themes related to competitiveness:

- International Trade and Finance
- Immigration Policy
- New Arenas for Strategic Competition: the Arctic Ocean, Space, the Internet
- National & Regional Competitiveness: Latin America, Egypt and China

Strategic Intent & Initiatives
Global Manufacturing and Competitiveness
Managing the Knowledge-based Firm
Intellectual Property
Sustainability
